Advanced Systems Group, Inc.

Full Time Career Opportunity

ASG is seeking a talented and ambitious individual for the position of Technology Systems Support. If you are someone who loves working with people to solve problems with cutting edge technology and software, then this may be your dream job.

The Technology Systems Support position works directly with ASG's Senior Engineer, and offers an excellent opportunity for growth and advancement within the company. Some light travel to client locations, approximately 10% of the time should be expected. You will also have an opportunity to learn a wide range of IT skills.

The ideal candidate will have the following experience:
- Familiarity with Microsoft Applications
- Desktop and network printer setup
- Email and internet connection configuration

An interest in learning (experience a plus):
- Network infrastructure
- Firewall configuration
- Forms Design
- Remote Desktop/Terminal Services setup
- Android/iOS configuration
- Various internet security configurations

Most importantly, you should be someone who enjoys solving problems. You will be working with clients over the phone and by remote controlling their computers, servers, and other equipment, so an ability to visualize problems and innovate solutions is a must.

Salary Range
$30,000 - 40,000 + Benefits (based on experience)

About Us
